

# Amherst COMMUNICATIONS

## PERMISSION TO BURY TELECOMMUNICATION FACILITIES

### Good News!

Amherst Communications will be upgrading the facilities in your area to be able to offer you Fiber Internet. Fiber is the most advanced Internet technology available, and delivers next-gen connectivity straight to your home. It enables lightning-fast speeds, reliability, and consistency, even during adverse weather, and with multiple devices online at once. Best of all, Fiber is built to grow with your needs, so your connection won't hold you back tomorrow.

In order to offer you Fiber, we will need to connect your home to our network. This involves a minimally invasive procedure that requires us to bury a line in your yard. In order to do so, we are requesting your permission to complete this construction.

- The undersigned property owner(s) hereby acknowledge that construction can be done by Amherst Communications on his/her property for the purposes of installing telecommunication facilities and hereby authorize this placement.
- Construction cleanup and restoration is the responsibility of the contractor.
- Contractor is/will be responsible for contacting Diggers Hotline on behalf of said owner(s) for the installation of their telephone facilities.

In witness whereof, I/we have dated and executed this notice of excavating or placement of buried drop wire on the date set forth alongside my/our signature(s).

Your Name (please print): \_\_\_\_\_

Street Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Phone: \_\_\_\_\_
